

# Silvestri Fabrizio

A quick learner with a passion for coding, I find fulfillment in roles with a hands-on connection with the work. I excel in collaborative environments, employing empathetic leadership to encourage positive team dynamics and emphasizing team well-being to boost motivation and productivity.

## PROFESSIONAL EXPERIENCE

### Full Stack Engineer, Mevisio AB – Stockholm

AUGUST 2024 - PRESENTE

Contributing as a Full Stack Engineer in a cross-functional team, developing and maintaining Mevisio's data visualization platform tailored for industrial clients. Responsibilities span across frontend, backend, and infrastructure management using Kubernetes and AWS and monitoring tools.

### Engineer Manager & CTO, Moank AB – Stockholm

MAY 2023 - JUNE 2024

Managing technology initiative performance, implementing strategic plans for business objectives, overseen infrastructure operations, and collaborate with executive leadership for long-term organizational growth. (In addition to all the tasks from the previous role.)

### Tech Lead Developer, Moank AB – Stockholm

OCTOBER 2021 - MAY 2023

Led team meetings for progress review and goal setting, developed and monitored project plans, utilized strong interpersonal skills to promote positive team relationships. Implemented infrastructures in AWS, enhancing CI/CD application flow with CircleCI and GitHub Actions.

### Full Stack Developer, Moank AB – Stockholm

AUGUST 2018 - OCTOBER 2021

Designed responsive and user-friendly React interfaces, managed NodeJS APIs conducting unit testing with Jest, optimized MongoDB database structures for high performance, mastered Git for collaborative teamwork.

## EDUCATION

### Università degli Studi di Genova, Genoa – Italy

SEPTEMBER 2014 - JULY 2018

Bachelor of Science (B.S) in Computer Science.
